## Overview

Dr. Devarati Khurjekar is a highly accomplished Radiologist at Apollo Hospitals, Pune, with over 18 years of experience in diagnostic imaging and advanced radiology. She holds an MBBS, MD (Radiology), DNB (Radiology), Fellowship in Neuroradiology, and a Super Speciality Diploma in Diagnostic Neuroradiology, reflecting her strong academic background and specialized expertise in neuroimaging.

Fluent in English, Hindi, and Marathi, Dr. Khurjekar ensures effective communication with patients and colleagues, making complex findings accessible and understandable. Her proficiency spans across neuroradiology, cross-sectional imaging, and advanced diagnostic techniques, supporting accurate and timely clinical decision-making for a wide range of medical conditions.

Renowned for her precision, dedication, and patient-focused approach, Dr. Khurjekar integrates her clinical expertise with the latest technological advancements in imaging. By collaborating closely with multidisciplinary teams, she plays a vital role in comprehensive patient care, contributing to improved outcomes and strengthening Apollo Hospitals' reputation for diagnostic excellence.
