Overview

Dr. Abhijeet Bagde is a trusted Paediatrician at Apollo Hospitals, Pune, with over 17 years of experience in child healthcare. He holds an MBBS and DNB in Pediatrics, which provide him with a strong foundation to manage a wide spectrum of pediatric conditions ranging from common childhood illnesses to more complex health concerns. His clinical expertise and dedication have established him as a reliable name in pediatric medicine.

Fluent in English, Hindi, and Marathi, Dr. Bagde ensures clear and compassionate communication with children and their families, helping them feel supported and informed throughout the care process. His approach emphasizes not only accurate diagnosis and effective treatment but also preventive care and parental education, empowering families to take an active role in their child's well-being.

At Apollo, Dr. Bagde is committed to delivering patient-centered pediatric care by integrating modern medical practices with a caring and empathetic approach. His focus on individualized treatment and his dedication to children's health have earned him the trust of families across Pune, making him a highly respected pediatrician in the community.
