Overview

Dr. Murugan L is an esteemed neurosurgeon with over 25 years of experience in the field. Based in Chennai, Tamil Nadu, he has dedicated his professional life to advancing neurosurgery and providing exceptional care to his patients. He holds a prestigious qualification, having completed both his MBBS and MCh in Neurosurgery, which underscores his deep understanding and expertise in treating complex neurological conditions. As a male physician fluent in both English and Tamil, Dr. Murugan is able to communicate effectively with a diverse patient base, ensuring that all individuals feel understood and comfortable during their consultations.

Dr. Murugan L is affiliated with Apollo Hospitals, a leading healthcare provider known for its commitment to quality and advanced medical treatments. His specialization in neurosurgery involves not only performing intricate surgical procedures but also engaging in comprehensive patient assessments and long-term care management. He is dedicated to staying abreast of the latest advancements in neurosurgery, utilizing cutting-edge techniques and technology to optimize patient outcomes.

Patients and their families appreciate Dr. Murugan's compassionate approach, as he prioritizes patient education and involvement in the treatment process. Although he is not publicly noted for specific awards, his long-standing practice and positive patient outcomes speak volumes about his capabilities. Whether you're facing a neurosurgical issue or seeking a consultation, Dr. Murugan L is committed to providing the highest standard of care in a welcoming and professional environment.

7. Who is a General Physician?

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. They treat various diseases and conditions affecting multiple bodily systems, including cardiovascular, respiratory, neurological, haematological, endocrine, and gastrointestinal, without requiring surgery. Some GPs may further specialize within these systems.

8. What are the educational requirements to become a General Physician?

General physicians, also known as primary care physicians, require completion of medical school followed by a three-year residency in primary care. Prerequisites include a science-based bachelor's degree, a minimum GPA, and successful completion of medical school and basic medical training. Commitment to the residency program is essential.

9. When should I consult a General Physician?

Consult a general physician for a wide range of non-surgical health concerns. These include issues affecting the cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine systems. A general physician is often the first point of contact for various health problems.

10. Do General Physicians offer home consultations?

General physicians offer comprehensive healthcare services, including physical examinations, immunizations, and treatment for various medical conditions. They often maintain long-term patient relationships across diverse age groups. However, the provision of home consultations is at the physician's discretion. Home visits for routine check-ups may be available.
