Overview

Dr. Pavankumar Biraris is a highly skilled Pulmonology Respiratory Medicine Specialist based in Mumbai, Maharashtra. With over 10 years of extensive experience in the field, he has developed a reputation for excellence in the diagnosis and management of complex respiratory conditions. Dr. Biraris has a rich educational background, holding qualifications such as MBBS, DTCD, DNB in Pulmonary Medicine, and a Diploma in Adult Respiratory Medicine. Fluent in English, Hindi, and Marathi, he effectively communicates with a diverse patient population.

Throughout his career, Dr. Biraris has acquired specialized expertise in interventional pulmonology, including procedures such as flexible bronchoscopy, EBUS-TBNA, and thoracoscopic interventions. His proficiency extends to the management of a wide range of pulmonary pathologies, from airway diseases and interstitial lung diseases to drug-resistant tuberculosis and pulmonary malignancies.

Dr. Biraris's commitment to advancing the field is demonstrated through his role as an Assistant Professor in the Department of Pulmonary Medicine at Tata Memorial Hospital, where he also contributed to developing the country's first academic fellowship program in pulmonary oncology. His dedication to

research is evident in his numerous publications in esteemed medical journals and his participation in various clinical trials and studies examining best practices in pulmonology.

In recognition of his contributions, Dr. Biraris has received several awards, including a national gold medal in the DNB Pulmonary Medicine exit exam and top honors at scientific conferences. His ongoing professional development includes advanced training in interventional pulmonology at prestigious institutions and involvement in numerous workshops and masterclasses aimed at educating his peers. Dr. Biraris is a dedicated clinician who prioritizes patient care and is known for his compassionate approach. Patients can expect comprehensive evaluations, personalized treatment plans, and ongoing support in their journey towards better respiratory health.
