Overview

Dr. Rajasekar P is a highly experienced orthopaedician based in Chennai, Tamil Nadu, with an impressive 24 years of clinical practice in the field of orthopaedics. Holding qualifications of MBBS, DHA, MNAMS, and DNB, he has established himself as a leading figure in the medical community. Dr. Rajasekar is proficient in multiple languages, including English, Hindi, Bengali, Assamese, and Arabic, allowing him to connect with a diverse range of patients.

As an esteemed member of the medical fraternity, Dr. Rajasekar has made significant contributions to the field through his research and expertise. He has presented multiple papers at state and national conferences, enhancing the knowledge base of fellow practitioners. His credentials include being an expert at notable international conferences such as the Asia Pacific conference on arthroscopy and viscosupplementation in Bangkok, Thailand, and the Arthroplasty Update in Kuala Lumpur, Malaysia. Dr. Rajasekar is actively involved in professional organizations, serving as an Executive Committee Member of the Indian Arthroscopy Society and the Indian Cartilage Society. Moreover, he is a founder member of the Indian Association for Computer-Assisted Surgery, reflecting his commitment to advancing

surgical practices through technology.

His research revolves around the efficacy of viscosupplementation in low KL grade osteoarthritis of the knee, indicating his dedication to improving treatment protocols for knee-related conditions. With his wealth of experience, knowledge, and commitment to patient care, Dr. Rajasekar P is a trusted choice for anyone seeking orthopaedic treatment.

6. How many years of experience does Dr. Rajasekar P have?

Dr. Rajasekar P possesses 40 years of experience in the medical field. His extensive career showcases his expertise and commitment to patient care.

7. Who is an Orthopedist?

An orthopedist is a physician specializing in the diagnosis and treatment of musculoskeletal disorders. They treat conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg and foot pain. Orthopedic care encompasses the skeletal system and its associated structures.

8. What is the difference between an Orthopedist and an Orthopedic Surgeon?

Orthopedists manage musculoskeletal conditions, offering pre- and post-surgical care. Orthopedic surgeons provide identical care but also perform surgeries for various issues, including back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

9. Does an Orthopedic Surgeon Treat Foot and Ankle Problems?

Yes, orthopedic surgeons specialize in musculoskeletal conditions, including foot and ankle issues. They treat common problems such as bunions, ankle sprains, arthritis, and sports injuries. Diagnosis often involves imaging tests, and treatment plans vary depending on the severity.

10. Do I need a doctor referral to see an Orthopedic Specialist?

You can schedule a direct appointment with an orthopedic specialist at their clinic or healthcare center. While a referral from a general physician is sometimes provided after initial assessment of musculoskeletal issues, it's not always necessary for an orthopedic consultation.
