2. Who is Dr. Rajesh Gupta?

Dr Rajesh Gupta is a renowned Ophthalmology with over 31 years of experience. He practices in Chennai at Apollo Hospitals Greams Road Chennai. Dr Rajesh Gupta holds a degree in MBBS MS. He provides treatments including Age Related Macular Degeneration Treatment, Corneal Ulcer Treatment. He specializes in treating conditions like Graves disease, Kearns Sayre Syndrome, Retinal diseases.

3. Why do patients visit Dr. Rajesh Gupta?

Patients choose Dr. Rajesh Gupta for specialized care in ophthalmology, including treatment of eye problems, vision testing, and diabetic eye checkups.

4. What is Dr. Rajesh Gupta's specialization?

Dr Rajesh Gupta specializes in Ophthalmology. He has expertise in treating conditions such as Graves disease, Kearns Sayre Syndrome, Retinal diseases. His key treatments include Age Related Macular Degeneration Treatment, Corneal Ulcer Treatment.

5. What are Dr. Rajesh Gupta's medical qualifications?

Dr Rajesh Gupta holds MBBS, MS reflecting his comprehensive education in the field of Ophthalmology.

6. How many years of experience does Dr. Rajesh Gupta have?

Dr. Rajesh Gupta has 31 years of experience in ophthalmology. His extensive medical career spans various healthcare settings.

7. Who is an Ophthalmologist?

An ophthalmologist is a medical doctor specializing in comprehensive eye care and vision. Unlike optometrists or opticians, ophthalmologists diagnose and treat a wide range of eye diseases and disorders. Their medical training allows them to refer patients to other specialists when necessary.

8. Is an Ophthalmologist different from an Optometrist?

Yes, ophthalmologists and optometrists offer distinct eye care services. Optometrists manage common eye conditions and certain chronic diseases such as glaucoma. Ophthalmologists address both common and complex eye disorders, including surgical procedures. Therefore, their scope of practice and expertise differ significantly.

9. Can an ophthalmologist perform surgery?

Yes, ophthalmologists are surgeons who undergo extensive training and gain significant experience. Many specialize further in areas such as eyelid, retinal, or pediatric ophthalmic surgery. Surgical practice may also depend on hospital or surgical center requirements.

10. How can an ophthalmologist help with cataracts?

Ophthalmologists diagnose cataracts using eye exams such as slit-lamp examination, retinal examination, and visual acuity testing. Cataract removal requires surgery, where the cloudy lens is

replaced with an artificial intraocular lens (IOL), restoring clear vision.
