6. How many years of experience does Dr. Ramesh C Ahuja have?

Dr. Ramesh C Ahuja has 55 years of experience in internal medicine. His extensive career spans many years.

7. What is internal medicine?

Internal medicine is a medical specialty focusing on the diagnosis and treatment of adult diseases, ranging from common to complex conditions. Internal medicine specialists manage both acute and chronic illnesses in adult patients. This includes both emergency care and long-term disease management.

8. Can an internal medicine specialist treat children?

Internal medicine specialists typically focus on adult care. However, some possess additional training allowing them to treat adolescents, providing a transition between pediatric and adult care.

9. Can an Internal Medicine Specialist Perform Surgery?

Internal medicine specialists focus on diagnosing and treating adult chronic diseases. While their training includes some surgical concepts, they don't perform surgery. Instead, they refer patients requiring surgical intervention to qualified surgeons and may participate in co-management of surgical cases.

10. Is an internist and internal medicine specialist the same?

Internal medicine specialists, often called internists, manage complex adult medical conditions. They may consult with each other on challenging diagnoses and chronic diseases. Essentially, the terms are interchangeable.
