Overview

Dr. Rohan Jagat Chaudhary is a distinguished Liver Transplant Specialist based in Mumbai, Maharashtra, with an impressive eight years of experience in the field. Currently affiliated with the Apollo Group of Hospitals, he serves as a Consultant Hepatobiliary and Liver Transplant Surgeon at Apollo Hospital, Navi Mumbai. Dr. Chaudhary commenced his journey in liver transplantation in 2014 and has since been integral in managing over 1,000 liver transplants and performing more than 300 complex hepatobiliary surgeries. His expertise encompasses Living Donor Liver Transplantation (LDLT), Deceased Donor Liver Transplantation (DDLT) across adult and pediatric populations, and advanced laparoscopic and robotic surgical procedures.

Dr. Chaudhary's prior experience includes a significant tenure at the Institute of Liver Transplantation and Regenerative Medicine, Medanta - the Medicity in Gurugram, where he honed his skills for five years. He played a critical role in developing the laparoscopic and robotic liver surgery programs, as well as serving as the Surgeon in charge of Medanta's Lucknow liver transplant program. Throughout his career, he has also collaborated with prominent hospitals such as HN Reliance, Jaslok, and Jupiter hospitals in Mumbai,

facilitating over 150 liver transplants during his tenures in these institutions.

A highly published researcher, Dr. Chaudhary has contributed to numerous peer-reviewed journals and is a regular contributor at global forums concerning liver transplantation and hepatobiliary surgery. His accolades include awards for top downloaded papers and various scholarships, reflecting his commitment to advancing the field of liver surgery. Dr. Chaudhary is not only dedicated to his patients but also actively engages in medical education as a faculty member at various professional conferences. He is fluent in multiple languages, including English, Hindi, Marathi, and Bengali, ensuring he can effectively communicate with a diverse patient base.

Awards

- Editorial Board Member - Journal of Surgical Oncology
- Original Work on Mythelene Blue Dye based Sentinel Node detection in Breast Cancer
