7. What are Dr. Saket Miglani's credentials?

Dr. Saket Miglani holds a Bachelor of Dental Surgery (BDS) and a Masters in Prosthodontics (MDS).

8. Who is a dentist?

A dentist is a healthcare professional specializing in dentistry, the branch of medicine focused on the teeth, gums, and surrounding oral structures. Dental care encompasses a range of services including fillings, extractions, teeth cleaning, polishing, and root canal treatments. Dentists may also possess specialized expertise requiring additional training.

9. What education qualifications are mandatory for a Dentist?

A doctoral degree in dental medicine or dental surgery is required. This follows a four-year bachelor's degree in a science-related field. Successful completion of a dental admission exam and enrollment in dental school are also necessary.

10. Should I consult a dentist for bad breath?

Persistent bad breath, or halitosis, often stems from poor oral hygiene. However, it can sometimes signal an underlying medical condition. A dental professional should be consulted for a proper diagnosis. The dentist will conduct a complete examination of your teeth and gums to identify the cause of your bad breath.

11. How many appointments are needed for root canal treatment?

Root canal therapy addresses severe tooth decay beyond simple filling repair. This procedure involves pulp removal, cleaning and filling of the resulting space, followed by crown placement. The required number of appointments varies based on the severity of tooth decay.
