Overview

Dr. Samantha Sathyakumar is a highly qualified endocrinologist based in Hyderabad, Telangana, with a commendable 11 years of experience in the field of medicine. Holding an MBBS, MD, and DM in Endocrinology, she is well-equipped to manage hormonal disorders and metabolic conditions that affect patients' health. Dr. Sathyakumar is fluent in multiple languages, including English, Hindi, Kannada, Tamil, and Telugu, allowing her to communicate effectively with a diverse group of patients.

Her dedication to the field is evidenced by the numerous awards she has received, such as the Gold Medal in Medicine and a Silver Medal for her performance in Medical Gastroenterology from Stanley Medical College in 2009. In 2016, she was honored with the Best Poster Award at ISMPOCON for her groundbreaking work on Adrenocortical Carcinoma, showcasing her commitment to advancing medical research and her expertise in clinical features and prognosis.

As a member of the Apollo network, Dr. Sathyakumar provides exceptional patient care, focusing not only on treatment but also on education and empowerment for her patients. Her approach is holistic, considering both medical and lifestyle factors that contribute to endocrine health. Whether you are seeking

diagnosis or treatment for diabetes, thyroid disorders, or any other hormonal issue, Dr. Samantha Sathyakumar offers a reliable and compassionate resource to help navigate these complex health challenges.

Frequently Asked Questions

1. Where does Dr. Samantha Sathyakumar practice?

Dr. Samantha Sathyakumar's medical practice is located at Apollo Health City, Jubilee Hills. This hospital offers comprehensive healthcare services.

2. Who is Dr. Samantha Sathyakumar?

Dr Samantha Sathyakumar is a renowned Endocrinologist with over 10 years of experience. She practices in Hyderabad at Apollo Health City Jubilee Hills. Dr Samantha Sathyakumar holds a degree in MBBS,MD,DM(Endocrinology). She provides treatments including Type 1 Diabetes Treatment. She specializes in treating conditions like Parathyroid Diseases, pituitary-diseases, Turner Syndrome.

3. Why do patients choose Dr. Samantha Sathyakumar?

Dr. Samantha Sathyakumar is sought after for her expertise in managing various types of diabetes, including Type 1, Type 2, gestational diabetes, and secondary diabetes. For a complete view of her specialties, please refer to her professional profile.

4. What is Dr. Samantha Sathyakumar's specialization?

Dr Samantha Sathyakumar specializes in Endocrinology. She has expertise in treating conditions such as Parathyroid Diseases, pituitary-diseases, Turner Syndrome. Her key treatments include Type 1 Diabetes Treatment.

5. What are Dr. Samantha Sathyakumar's medical qualifications?

Dr Samantha Sathyakumar holds MBBS,MD,DM(Endocrinology), reflecting her comprehensive education in the field of Endocrinology.

6. How many years of experience does Dr. Samantha Sathyakumar have?

Dr. Samantha Sathyakumar has 10 years of experience in endocrinology.

7. Who is an endocrinologist?

An endocrinologist is a specialist doctor trained in diagnosing and treating endocrine gland disorders. These glands produce hormones, and endocrinologists manage conditions affecting the thyroid, pituitary, pancreas, and other hormone-producing organs. Endocrine specialists provide comprehensive hormone disorder care.

8. What symptoms warrant consultation with an endocrinologist?

Consult an endocrinologist for symptoms indicative of hormonal imbalances, including unexplained weight changes, acne, hirsutism (excess facial hair in women), infertility, fatigue, significant hair loss, unusual temperature sensitivity (feeling excessively cold or hot), voice changes, and other related issues. These symptoms may suggest underlying endocrine disorders requiring specialist care.

9. What diseases does an endocrinologist treat?

Endocrinologists specialize in diagnosing and treating hormonal disorders. These include hypothyroidism, hyperthyroidism, diabetes (related to insulin production), gigantism, dwarfism, Cushing's syndrome, hypo- and hyperpituitarism, polycystic ovary syndrome (PCOD), and infertility, among others.
