Overview

Dr. Sowmya C C is a dedicated and experienced Paediatrician based in Bangalore, Karnataka. With a commendable 18 years of experience in the field of child health, she has established herself as a trusted physician for families seeking comprehensive care for their little ones. Dr. Sowmya is well-qualified, holding an MBBS and DNB in Paediatrics from prestigious institutions, including I.G.I.C.H. Her expertise lies in diagnosing and treating a wide range of health issues affecting infants, children, and adolescents. She is particularly passionate about promoting overall wellness among children and addressing their unique healthcare needs.

As a female Paediatrician, Dr. Sowmya relates well to her young patients and their parents, providing a comforting environment during consultations. Being multilingual, she is fluent in English, Hindi, and Kannada, enabling her to communicate effectively with a diverse patient population. Her collaborative approach to healthcare fosters strong relationships with both patients and their families, ensuring that parents are well-informed and actively involved in their child's health journey.

In addition to her clinical practice, Dr. Sowmya is dedicated to ongoing education and staying current with the latest developments in paediatric medicine. She engages in regular professional development and has a keen interest in preventative healthcare strategies, aiming to educate parents on nutrition, immunizations, and healthy lifestyle choices for their children. Dr. Sowmya C C is proud to be affiliated with Cradle, which emphasizes compassionate care and a family-centered approach in paediatric healthcare. Whether it's routine check-ups or more complex health concerns, patients can rely on Dr. Sowmya's expertise and commitment to delivering excellent medical care.

7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a physician specializing in children's healthcare. Their expertise encompasses physical, behavioral, and mental health, addressing illnesses ranging from minor ailments to complex disorders. Pediatric care begins at birth.

8. What age range of children do your Paediatricians treat?

Our pediatricians provide care for children from birth through age 18. Infants (0-2 years) may require frequent visits, while toddlers (2-5 years) typically need annual checkups. Annual visits are recommended for children up to age 18.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's health and well-being. However, pediatric surgeons specialize in surgical procedures on children. While some pediatricians may perform surgeries after specialized training, their practice typically involves non-invasive treatments and evaluations. Pediatric surgeons handle a range of procedures, from minor (foreign body removal) to complex major surgeries (e.g., cardiac surgery).

10. What does a pediatrician do?

Pediatricians provide comprehensive healthcare for children. Their services include administering vaccines, treating injuries (e.g., dislocations, foreign bodies), performing minor procedures (e.g., circumcision, bone reduction), and conducting routine well-child examinations. They also manage conditions affecting newborns and infants.
