5. How many years of experience does Dr. Sujatha S have?

Dr. Sujatha S possesses over 35 years of experience in medicine. Her extensive medical career spans numerous years of service.

6. Who is a General Physician?

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. They treat various diseases not requiring surgery, covering cardiovascular, respiratory, neurological, hematological, endocrine, and gastrointestinal systems. Some GPs may further specialize within these areas.

7. What are the educational requirements to become a General Physician?

General physicians, also known as primary care physicians, require a medical degree followed by a three-year residency in primary care. Prerequisites include a science-based bachelor's degree, a minimum GPA, successful completion of medical school, and fundamental medical training. Commitment to the residency program is essential.

8. When should I consult a General Physician?

Consult a general physician for a wide range of health concerns, including cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine system issues not requiring surgery. A GP is often the first point of contact for any medical symptom.

9. Do General Physicians offer home visits?

General physicians (GPs) offer comprehensive healthcare, including physical examinations, immunizations, and treatment for various medical conditions. They manage patients of all ages, often establishing long-term care. However, home visit availability varies depending on individual physician preference. Routine check-ups may be conducted at a patient's home.

10. Can a General Physician perform surgery?

No. General physicians specialize in primary care, providing non-surgical treatment for illnesses and injuries. Surgical procedures are performed by general surgeons. Physicians focus on primary care, building patient relationships and employing non-surgical methods such as medication and physical therapy.
