Overview

Dr. Surya Mohanty is a highly experienced Obstetrician and Gynaecologist with over 27 years in the field. Based in the vibrant city of Bhubaneswar, Odisha, he is recognized for his compassionate care and expert approach to women's health. Dr. Mohanty holds an impressive educational background, including an MBBS and an MD from Mumbai, along with a DGO and FCPS (Mumbai) specializing in Obstetrics & Gynaecology. Currently, he serves as the Senior Consultant and Head of the Department, showcasing his leadership and commitment to medical excellence.

Fluent in multiple languages such as English, Hindi, Marathi, Oriya, Bengali, Odia, and Punjabi, Dr. Mohanty connects effectively with a diverse range of patients, ensuring that they feel understood and supported throughout their healthcare journey. His expertise extends to advanced surgical techniques, including Laparoscopic and Hysteroscopic procedures, allowing him to offer minimally invasive options that enhance recovery and outcomes for his patients.

Recognized and trusted for his proactive approach, Dr. Mohanty's dedication goes beyond routine care, as he continually stays updated with the latest advancements in obstetric and gynecological practices.

Patients appreciate his personalized treatment plans, which are tailored to meet their unique health needs. With a blend of professionalism and empathy, Dr. Surya Mohanty stands out as a premier choice for anyone seeking specialized care in obstetrics and gynecology in the region.

Experience

- Medical Officer at Wadia Maternity Hospital Mumbai From 1994 1997
- Visiting Consultant at Kalinga Hospital Bhubaneswar From 1998 2006
- Senior Consultant at Apollo Hospitals Bhubaneswar From 2010 till date.

6. What is Dr. Surya Narayan Mohanty's experience?

Dr. Surya Narayan Mohanty has 27 years of experience in Gynecology and Obstetrics.

7. Who is a Gynecologist?

A gynecologist is a healthcare professional specializing in women's reproductive health. They provide care and treatment for various conditions affecting women, including sexually transmitted infections (STIs), hormonal imbalances, breast disorders, cervical cancer, and urinary tract infections (UTIs). Gynecological care encompasses preventative health and managing a wide range of reproductive health issues.

8. What is the difference between a Gynecologist and an Obstetrician?

Gynecologists specialize in the female reproductive system, focusing on diagnosis, treatment, and disease prevention. Obstetricians specialize in pregnancy, childbirth, and related complications. Essentially, a gynecologist manages women's reproductive health, while an obstetrician manages pregnancy and delivery.

9. What procedures do Gynecologists/Obstetricians perform?

Gynecologists/Obstetricians commonly perform procedures including Pap smears, ultrasound screenings, endometrial biopsies, STI tests, colposcopy (cervical, vaginal, and vulval examination), pelvic exams, laparoscopy, mammography, fertility treatments like in-vitro fertilization, and surgeries such as Cesarean sections, fibroid removal, and hysterectomies.
