## **5. How many years of experience does Dr. V K Aneja have?**

Dr. V K Aneja has 41 years of experience in the medical field.

## **6. Who is a General Physician?**

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. They treat various diseases and conditions affecting multiple body systems, including cardiovascular, respiratory, neurological, hematological, endocrine, and gastrointestinal, without requiring surgery. Some GPs may further specialize in a specific system.

## **7. What are the education requirements to become a General Physician?**

General physicians, also known as primary care physicians, require a bachelor's degree in science with a minimum GPA, followed by medical school and basic medical training. Completion of a 3-year medical residency program in primary care is mandatory for practice.

## **8. When should I consult a General Physician?**

A general physician provides primary care for various health concerns. They manage non-surgical conditions affecting the cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine systems. Consult a general physician for symptoms related to these systems.

## **9. Do General Physicians offer home visits?**

General practitioners (GPs) provide comprehensive primary care, including check-ups, immunizations, and treatment for various health issues across age groups. Home visits are offered at the discretion of the individual physician. Routine examinations may be conducted at a patient's home.

## **10. Can a General Physician perform surgery?**

No. General physicians specialize in primary care, offering non-surgical treatment for illnesses and injuries. Surgical procedures are performed by general surgeons. Physicians focus on primary care, building patient relationships and using methods such as medication and physical therapy.
