Dr Venkatraman S specializes in Diabetology. He has expertise in treating conditions such as Type 1 Diabetes, Type 2 Diabetes, Gestational Diabetes. His key treatments include Insulin Therapy, Continuous Glucose Monitoring, Oral Hypoglycemics.

## **5. What are Dr. Venkatraman S's medical qualifications?**

Dr Venkatraman S holds MD (Internal Medicine), reflecting his comprehensive education in the field of Diabetology.

## **6. What is Dr. Venkatraman S's experience?**

Dr. Venkatraman S possesses 30 years of experience in the medical field.

## **7. Who is a General Physician?**

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. GPs treat various diseases not requiring surgery, encompassing cardiovascular, respiratory, neurological, haematological, endocrine, and gastrointestinal systems. Some GPs may develop sub-specialties within these systems.

## **8. What are the education requirements to become a General Physician?**

General physicians, also known as primary care physicians, require a bachelor's degree in science with a minimum GPA, followed by medical school and basic medical training. Completion of a 3-year medical residency for primary care practice is mandatory. This training provides the necessary skills for a career in primary care medicine.

## **9. When should I consult a General Physician?**

Consult a general physician for various health concerns, including cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine system issues. General physicians provide non-surgical treatment for a wide range of symptoms affecting these systems. They serve as the first point of contact for most health problems.

## **10. Do General Physicians offer home consultations?**

General physicians (GPs) provide comprehensive healthcare services, including physical examinations, immunizations, and treatment for various medical conditions. GPs often maintain long-term patient relationships and care for diverse age groups. However, offering home consultations is at the discretion of the individual physician. Home visits may be available for general check-ups or routine examinations.
