6. How many years of experience does Dr. Vidya Gupta have?

Dr. Vidya Gupta possesses 30 years of experience in the medical field. Her extensive career showcases a deep commitment to patient care and medical expertise.

7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a medical doctor specializing in children's healthcare. Their expertise encompasses physical, behavioral, and mental health, addressing childhood illnesses ranging from minor ailments to complex medical conditions. Pediatric care begins at birth.

8. What age range of children do Paediatricians treat?

Apollo Hospitals' pediatricians provide care for children from birth through age 18. Infants (0-2 years) may require frequent visits, while well-child checkups are typically annual from ages 2-5 and yearly thereafter until age 18. Comprehensive pediatric care is available throughout childhood and adolescence.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's health, encompassing physical and mental well-being. While some pediatricians with specialized surgical training can perform procedures, pediatric surgeons are the specialists for surgical interventions. Pediatricians primarily handle non-invasive treatments. Pediatric surgical expertise ranges from minor procedures (e.g., foreign body removal) to complex operations such as cardiac surgery.
