Overview

Dr. D K Sriram is a highly esteemed diabetologist with over 30 years of dedicated experience in the field of diabetes care and management. Based at Apollo Hospitals Greaves Road in Chennai, Dr. Sriram has built a reputation for his comprehensive approach to treating diabetes and its related complications. His extensive educational background includes prestigious qualifications such as MRCP (UK), FRCP (UK), MSc in Diabetes (UK), and MRCP in Endocrinology & Diabetes (UK). This robust academic foundation equips him with the knowledge and skills necessary to provide exceptional care to his patients, ensuring they receive the most current and effective treatment options available. Dr. Sriram's clinical focus encompasses a wide range of diabetes-related issues, including Type 1 and Type 2 diabetes management, insulin therapy, and the prevention of diabetes complications. He is particularly passionate about empowering his patients through education, helping them understand their condition and the importance of lifestyle modifications in managing their health. His warm and approachable demeanor fosters a trusting environment, allowing patients to feel comfortable discussing their concerns and challenges. Dr. Sriram believes in a patient-centered approach, tailoring treatment plans to meet the

unique needs of each individual, which has led to numerous success stories throughout his career. As a valued member of the Apollo Hospitals team, Dr. Sriram is committed to upholding the hospital's mission of providing high-quality healthcare. His collaboration with a multidisciplinary team ensures that patients receive holistic care that addresses not only their medical needs but also their emotional and psychological well-being. With a focus on innovation and continuous improvement, Dr. Sriram remains at the forefront of advancements in diabetes treatment, making him a trusted partner in the journey toward better health for his patients.
