Overview

Dr. Afreen Banu Khan is a dedicated and compassionate General Physician with a robust background in Internal Medicine, bringing over eight years of experience to her practice. Based at Apollo Speciality Hospitals OMR in Chennai, Dr. Khan has established herself as a trusted healthcare provider, known for her thorough approach to patient care and her commitment to improving the health and well-being of her patients. Her extensive training and experience enable her to manage a wide range of medical conditions, ensuring that each patient receives personalized and effective treatment tailored to their unique needs. Dr. Khan's educational qualifications are impressive, holding an MBBS degree along with specialized training in Diabetes Management (DDM) and Cardiology (FCC). This diverse educational background equips her with the knowledge and skills necessary to address complex health issues, particularly those related to chronic diseases such as diabetes and cardiovascular conditions. Her clinical focus encompasses preventive care, early diagnosis, and comprehensive management of various health concerns, allowing her to provide holistic care that empowers patients to take charge of their health. At Apollo Speciality Hospitals OMR, Dr. Khan is not only a valued member of the medical team but also a strong advocate for

patient-centered care. She believes in fostering open communication with her patients, ensuring they feel heard and understood throughout their healthcare journey. By combining her expertise with a warm, empathetic approach, Dr. Khan strives to create a supportive environment where patients can feel comfortable discussing their health issues. Her dedication to continuous learning and improvement in her practice reflects her commitment to providing the highest standard of care, making her an invaluable asset to both her patients and the hospital community.
