Overview

Dr. Abirami S is a highly skilled and compassionate Obstetrician and Gynaecologist with over a decade of experience in providing exceptional healthcare to women. Based in Chennai, she is dedicated to addressing the unique health needs of her patients throughout various stages of their lives. Dr. Abirami completed her MBBS and MS in Obstetrics and Gynaecology, followed by advanced training in Minimal Access Surgery (FMAS), equipping her with a comprehensive understanding of both routine and complex medical conditions. Her extensive educational background and hands-on experience enable her to deliver high-quality care, ensuring that her patients receive the best possible outcomes. At Apollo Womens Hospital, Chennai, Dr. Abirami is committed to fostering a supportive and nurturing environment for her patients. She believes in a patient-centered approach, where open communication and empathy are at the forefront of her practice. Dr. Abirami takes the time to listen to her patients' concerns, providing personalized treatment plans that cater to their individual needs. Her clinical focus encompasses a wide range of women's health issues, including prenatal care, reproductive health, and menopause management. She is particularly passionate about empowering women through education, helping them

make informed decisions about their health and well-being. Dr. Abirami's association with Apollo Women's Hospital, Chennai reflects her dedication to excellence in women's healthcare. The hospital's state-of-the-art facilities and commitment to patient safety align perfectly with her professional values. Together, they strive to create a holistic healthcare experience that prioritizes the physical and emotional well-being of every patient. With her expertise and warm demeanor, Dr. Abirami S is not only a trusted medical professional but also a partner in her patients' health journeys, ensuring they feel cared for and supported every step of the way.
