Overview

Dr. Alpa Khakhar is a highly esteemed urogynaecologist with over 25 years of dedicated experience in the field of women's health. Based at Apollo Womens Hospital, Chennai in Chennai, she has built a reputation for her exceptional clinical skills and compassionate approach to patient care. Dr. Khakhar's extensive educational background includes an MBBS and an MD in Obstetrics and Gynaecology, equipping her with a solid foundation in both general and specialized medical practices. Her commitment to continuous learning and professional development ensures that she remains at the forefront of advancements in urogynaecology, allowing her to provide the highest standard of care to her patients. In her practice, Dr. Khakhar focuses on a range of conditions affecting women's pelvic health, including urinary incontinence, pelvic organ prolapse, and other complex urogynaecological issues. She is known for her thorough diagnostic approach and her ability to tailor treatment plans that address the unique needs of each patient. Dr. Khakhar believes in fostering a supportive and open environment where patients feel comfortable discussing their concerns. Her empathetic nature and excellent communication skills help to build trust, making her patients feel valued and understood throughout their treatment journey. As a vital member of

the Apollo Women Hospitals team, Dr. Khakhar is committed to upholding the hospital's mission of providing comprehensive and compassionate care to women. Her association with this esteemed institution allows her to collaborate with a multidisciplinary team of healthcare professionals, ensuring that her patients receive holistic care that encompasses both physical and emotional well-being. Dr. Khakhar's dedication to her patients and her passion for women's health make her a trusted choice for those seeking expert care in urogynaecology.
