Overview

Dr. Dipanjana Datta is a highly esteemed Genetic Counselor with over 15 years of dedicated experience in the field of genetic counseling. Based at Apollo Multispeciality Hospitals in Kolkata, she has established herself as a leading expert in her specialty, providing invaluable support and guidance to patients navigating the complexities of genetic conditions. Dr. Datta holds a PhD and a postdoctoral fellowship from the USA, along with Level II certification from the British Genetic Counseling Institute (BGCI). Her extensive educational background equips her with a profound understanding of genetic disorders, enabling her to offer comprehensive counseling tailored to the unique needs of each patient. Dr. Datta's clinical focus encompasses a wide range of genetic issues, including hereditary conditions, prenatal genetics, and the management of rare diseases. As the State Coordinator for the Organization of Rare Disease India (ORDI), she is deeply committed to raising awareness and improving access to care for individuals affected by rare genetic disorders. Her approach to patient care is characterized by empathy, clarity, and a strong emphasis on informed decision-making. Dr. Datta believes in fostering a supportive environment where patients and their families feel empowered to ask questions and engage in their care journey. She
