Overview

Dr. Asif Iqbal is a highly esteemed pulmonologist based in Kolkata, bringing over 14 years of dedicated experience in the field of respiratory medicine. His extensive educational background includes a DNB in Anesthesia, FCCP from the USA, and specialized training in Respiratory Medicine and Critical Care Medicine (IDCCCM). This robust foundation equips him with a comprehensive understanding of complex respiratory conditions, allowing him to provide exceptional care to his patients. Dr. Iqbal is currently associated with Apollo Multispeciality Hospitals in Kolkata, where he is committed to delivering high-quality healthcare and improving the lives of those suffering from respiratory ailments. Dr. Iqbal's clinical focus encompasses a wide range of respiratory disorders, including chronic obstructive pulmonary disease (COPD), asthma, interstitial lung disease, and sleep-related breathing disorders. His approach to patient care is characterized by a deep commitment to understanding each patient's unique needs and circumstances. He believes in fostering a collaborative environment where patients feel empowered to participate in their treatment plans. By utilizing the latest advancements in medical technology and evidence-based practices, Dr. Iqbal ensures that his patients receive the most effective and personalized

care possible. At Apollo Multispeciality Hospitals, Dr. Iqbal is part of a multidisciplinary team that prioritizes patient-centered care. His dedication to continuous learning and professional development allows him to stay at the forefront of advancements in pulmonology, ensuring that his patients benefit from the latest treatment options. Dr. Iqbal's warm demeanor and compassionate approach make him a trusted choice for individuals seeking expert care in respiratory health. Whether managing chronic conditions or providing critical care, he is devoted to enhancing the quality of life for his patients and their families.
