Overview

Dr. Joshua Rajan Xavier is a highly experienced Neurosurgeon currently practicing at Apollo Speciality Hospitals, Trichy. With over 14 years of medical experience, he brings a wealth of knowledge and precision to the diagnosis and surgical treatment of complex neurological conditions. His academic credentials include MBBS, MD, DCH (Paediatrics), and IDPCCM, reflecting his diverse training and multidisciplinary understanding of both pediatric and adult neurological care.

Dr. Xavier's expertise spans a wide array of neurosurgical procedures, including brain and spinal surgeries, trauma management, neurocritical care, and treatment of congenital neurological disorders. His background in both pediatrics and intensive care gives him a unique ability to manage delicate neurosurgical cases with a patient-focused and safety-first approach. He is particularly known for integrating cutting-edge techniques with compassionate care to ensure optimal outcomes for his patients. Fluent in English, Tamil, and Kannada, Dr. Joshua Rajan Xavier ensures clear communication with patients and their families across linguistic backgrounds. His calm demeanor and patient-centric philosophy help build trust, especially in high-stress neurosurgical scenarios. With a reputation for clinical excellence and dedication, Dr. Xavier stands out as a trusted name in neurosurgery in Trichy, committed to delivering advanced neurological care with empathy and precision.
