Overview

Dr. Alok Ranjan is a highly skilled neurosurgeon based in Hyderabad, Telangana, with an impressive experience of 24 years in the field of neurosurgery. He holds an MBBS and an MCh in Neurosurgery, showcasing his commitment to medical excellence and specialization. Dr. Ranjan has earned a reputation for his expertise in minimally invasive techniques such as disc surgery, spinal fusion, disc arthroplasty, and balloon kyphoplasty. He actively contributes to the medical community by conducting instructional courses at nationally organized workshops, sharing his knowledge with peers and aspiring surgeons alike. Since beginning his career in 1999, Dr. Ranjan has performed over 9,000 major neurosurgical operations at Apollo Hospitals in Hyderabad, demonstrating his proficiency in handling complex cases and his dedication to patient care. His dual language proficiency in English and Hindi enables him to communicate effectively with a diverse patient base, ensuring a comfortable and transparent treatment experience. As a male neurosurgeon at Apollo, Dr. Alok Ranjan is not only a practitioner but also an educator in the rapidly evolving field of neurosurgery. His contributions to both patient care and surgical education make him a distinguished figure within the medical community. Whether you're seeking treatment for a

neurological condition or in need of expert advice, Dr. Ranjan's extensive experience and commitment to innovative surgical solutions position him as an invaluable asset to patients in Hyderabad and beyond.
