Overview

Dr.Anjana Hulse is one of the very few pediatric endocrinologists in Bangalore. She graduated from Rajiv Gandhi university of health sciences, Bangalore. She trained in pediatrics in some of the premier institutions in U.K including General Infirmary at Leeds and Royal Hospital for Sick Children, Glasgow. Following 5 years of pediatric training, she obtained MSc (clinical) in pediatric endocrinology with distinction from the University of Glasgow and RHSC. RHSC is a tertiary center for pediatric endocrinology. She has also visited Sick Kids' hospital, Toronto, Canada for two months where she had further exposure in metabolic bone disorders and type 1 diabetes in children. She has been working at Apollo hospitals, Bangalore since October 2011.

Dr. Hulse's areas of special interest in pediatric endocrinology includes problems related to growth and puberty, thyroid problems, obesity and diabetes in children.

Fluent in English, Hindi, and Kannada, Dr. Hulse ensures effective communication with diverse families, making them comfortable during consultations.

6. How many years of experience does Dr. Anjana Hulse have?

Dr. Anjana Hulse possesses 6 years of experience in pediatrics. Her extensive medical career spans over two decades.

7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a medical doctor specializing in children's healthcare. They are trained to address a child's physical, behavioral, and mental well-being, managing health concerns from minor illnesses to complex disorders. Pediatric care begins at birth.

8. What age range of children do your Paediatricians treat?

Apollo Hospitals' pediatricians provide care for children from birth through age 18. Infants (0-2 years) may require frequent visits, while well-child checkups are typically annual from ages 2-5 and beyond. Annual visits are recommended until the child turns 18.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's physical and mental health. While some pediatricians, with specialized surgical training, may perform procedures, pediatric surgeons are specialists in surgical interventions for children. Pediatricians primarily use non-surgical methods. Pediatric surgeons' expertise ranges from minor procedures (e.g., foreign body removal) to complex surgeries (e.g., cardiac surgery).
