5. How many years of experience does Dr. Annam Sridhar have?

Dr. Annam Sridhar possesses 27 years of experience in ophthalmology.

6. Who is a General Physician?

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. They treat various diseases not requiring surgery, covering cardiovascular, respiratory, neurological, hematological, endocrine, and gastrointestinal systems. Some GPs may develop sub-specialties within these systems.

7. What are the educational requirements to become a General Physician?

General physicians, also known as primary care physicians, require completion of a medical residency in primary care following graduation from medical school. Prerequisites include a science-based bachelor's degree, a minimum GPA, successful medical school completion, and foundational medical training. A three-year residency commitment is mandatory.

8. When should I consult a General Physician?

Consult a general physician for a wide range of non-surgical health concerns. These include cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine system issues. A GP is typically the first point of contact for most health problems.

9. Do General Physicians offer home consultations?

General practitioners (GPs) provide comprehensive primary care, including check-ups, immunizations, and treatment for various medical conditions. They manage patients across age groups. Whether a GP offers home consultations is dependent on their individual practice and availability. Home visits may be an option for routine examinations.

10. Can a General Physician perform surgery?

No. General physicians specialize in primary care, providing non-surgical treatment for illnesses and injuries. Surgical procedures are performed by general surgeons. Physicians focus on primary care, long-term patient relationships, and non-surgical methods like medication and physical therapy.
