7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a medical doctor specializing in children's healthcare. They provide comprehensive care addressing physical, behavioral, and mental health needs from infancy through adolescence, managing illnesses ranging from common ailments to complex medical conditions.

8. What age range of children do your Paediatricians treat?

Our pediatric specialists provide care for children from birth through age 18. Infants (0-2 years) may require more frequent visits. Annual well-child checkups are recommended for children aged 2-5. Annual visits continue for children up to age 18.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's physical and mental health. While some pediatricians, with specialized surgical training, may perform procedures, pediatric surgeons are specialists in surgical care for children. Pediatricians primarily utilize non-invasive methods. Pediatric surgeons' expertise ranges from minor procedures (like foreign body removal) to complex surgeries such as cardiac surgery.
