## Frequently Asked Questions

### 1. Where does Dr. Haresh Patel practice?

Dr. Haresh Patel practices at Apollo Hospitals International Limited, Ahmedabad. This hospital offers comprehensive healthcare services and is known for its top doctors and advanced medical technology.

### 2. Who is Dr. Haresh Patel?

Dr Haresh Patel is a renowned Nephrologist with over 16 years of experience. He practices in Ahmedabad at Apollo Hospitals International Limited Ahmedabad. Dr Haresh Patel holds a degree in MBBS, MD (Medicine), DM (Nephrology). He provides treatments including Acute Kidney Disease Aki Treatment, Nephrotic Syndrome Treatment, Chronic Kidney Disease Ckd Treatment. He specializes in treating conditions like Nephrotic syndrome, Polycystic kidney disease, Acute Renal Failure.

### **3. Why do patients choose Dr. Haresh Patel?**

Patients select Dr. Haresh Patel for expertise in Chronic Kidney Disease (CKD) treatment, Kidney Failure management, and Kidney Dialysis.

### **4. What is Dr. Haresh Patel's specialization?**

Dr Haresh Patel specializes in Nephrology. He has expertise in treating conditions such as Nephrotic syndrome, Polycystic kidney disease, Acute Renal Failure. His key treatments include Acute Kidney Disease Aki Treatment, Nephrotic Syndrome Treatment, Chronic Kidney Disease Ckd Treatment.

### **5. What are Dr. Haresh Patel's medical qualifications?**

Dr Haresh Patel holds MBBS, MD (Medicine), DM (Nephrology), reflecting his comprehensive education in the field of Nephrology.

### **6. How many years of experience does Dr. Haresh Patel have?**

Dr. Haresh Patel has 16 years of experience in the medical field.

### **7. Who is a nephrologist?**

A nephrologist is a kidney doctor specializing in diagnosing and treating kidney diseases in both adults and children. They manage various complications stemming from kidney dysfunction.

### **8. Can a nephrologist treat a urinary tract infection?**

While a general practitioner can manage many urinary tract infections (UTIs), a nephrologist's expertise is beneficial for complex cases. If recurrent UTIs suggest an underlying kidney issue, a nephrologist can diagnose the root cause and provide specialized treatment, especially when kidney damage is involved. Their specialized knowledge ensures optimal care for severe or persistent infections.

### **9. Does a nephrologist perform kidney transplants?**

Kidney transplant surgery is performed by a specialized surgeon, focusing on kidney conditions. Nephrologists provide crucial medical management and care before and after the transplant but don't conduct the surgery itself. Their role is vital to the patient's overall kidney health and transplant outcome.
